**GENERAL INFORMATION**

The Generator Fee is imposed on each person that generates (produces) hazardous waste of five (5) tons or more at a site in each calendar year. The fee is calculated for each site's generation of waste at each site regardless of the waste's final disposition (for example, recycling or disposal).

**FILING REQUIREMENTS**

Under section 43152.15 of the Hazardous Substances Tax Law, a prepayment of the Generator Fee by site is due and payable on or before the last day of August, with a remittance payable to the California Department of Tax and Fee Administration. An annual return must be filed even if no additional Generator Fee is due. Failure to file either the prepayment or annual return may result in the imposition of penalties. Under section 43155 of the Hazardous Substances Tax Law, late payment will result in a 10 percent (0.10) penalty and interest at an adjusted annual rate established under section 6591.5 of the Revenue and Taxation Code. Facility operators who pay an annual Facility Fee at a site are not subject to a Generator Fee for the same site.
