**INSTRUCTIONS FOR EXEMPT BUS OPERATOR USE FUEL TAX RETURN**

User of Fuel Exempt under section 8655, of the Revenue and Taxation Code

**Payments:** To make your payment online, go to our website at [www.cdtfa.ca.gov](http://www.cdtfa.ca.gov) and select *Make a Payment*. You can also pay by credit card on our website, or by calling 1-855-292-8931. If paying by check or money order, be sure to include your account number. Make your check or money order payable to California Department of Tax and Fee Administration.

**GENERAL INFORMATION**

Fuel users must file this return to report use of the following types of fuels (when used in the fuel tanks of motor vehicles):

- Compressed natural gas (CNG)
- Liquefied natural gas (LNG)
- Liquefied petroleum gas (LPG)
- Alcohol fuels containing not more than 15 percent (0.15) gasoline or diesel fuel (for example, ethanol and methanol)
- Kerosene, distillate, and stove oil
- Any fuel used or suitable for use in motor vehicles, other than fuel subject to the diesel fuel tax or the motor vehicle fuel tax (for example, gasoline and blended fuels with more than 15 percent (0.15) gasoline are subject to the motor vehicle fuel tax and, as a result, are not subject to use fuel tax)

Pursuant to Revenue and Taxation Code (R&TC) section [8608](#) and [8701](#), you must have a user use fuel permit and file returns if you operate on California highways a vehicle that weighs, unladen, over 7,000 pounds and is powered by fuels described above. Returns are also required to be filed by the owners/operators of vehicles that use the above fuels in commercial vehicles weighing less than 7,000 pounds who are paying the annual flat rate tax. Annual flat rate decal holders must provide written representation to fuel vendors that the annual flat rate tax has been paid, and the fuel seller is not liable for collecting and paying those taxes.

**FILING REQUIREMENTS**

Pursuant to (R&TC) section [8752](#), users of fuel subject to the use fuel tax must file returns. The return and payment are due on the last day of the month following the end of the reporting period. Payments should be made payable to the California Department of Tax and Fee Administration. A return must be filed for each period even though no fuel may have been used during the period. If no fuel was used, write the word "none" on line 3. Users of fuel subject to the tax shall obtain from the vendor of the fuel and retain in their files an invoice for each delivery of such fuel into the fuel tank or tanks of each vehicle operated by them and for each delivery into their bulk storage tank or tanks. Users should keep as part of their records a detail of figures upon which are based the totals set forth on their returns to the CDTFA (Regulation [1332](#)).

- Line 1.** Enter the total number of units or gallons of fuel which you used to operate vehicles both in and out of California. Include fuel used by a lessee of your vehicles if you are responsible for furnishing the fuel, see Regulation [1304](#), User. Report whole units or whole gallons only. Round off tenths of units to the nearest whole unit. Round off tenths of gallons to the nearest whole gallon. "Bulk storage" includes fuel stored in drums, barrels, tanks or other storage facilities, except fuel supply tanks of vehicles.
- Line 2.** Enter the number of units or gallons of fuel used in a nontaxable manner from line A6 of Schedule A. Only fuel included in line 1 can be claimed on line 2.
- Line 3.** Subtract line 2 from line 1.
- Line 4a.** Enter the total number of units or gallons of fuel used in an exempt manner for qualifying local transit services by:
- Any transit district, transit authority, or a city owning and operating a local transit system itself or through a wholly owned non-profit corporation.
  - Any private entity providing transportation services under a contract or agreement other than a general franchise agreement, with a public agency authorized to provide public transportation services.
  - Any passenger stage corporation subject to the jurisdiction of the PUC and providing transportation of persons for hire when the motor vehicle is exclusively operated in urban or suburban areas or between cities in close proximity. Do not include fuel used on any route which exceeds 50 miles one-way.
  - Any common carrier of passengers operating exclusively within the limits of a single city between fixed terminals or over a regular route, 98 percent of whose operations are within the limits of a single city.
- Line 4b.** Enter the total number of units or gallons of fuel used in an exempt manner for school bus transit operations by:
- Any school district, community college district, or county superintendent of schools owning, leasing or operating buses for the purpose of transporting pupils to and from school and for other school activities or any private entity providing such transportation services under a contract with the school district.
- Line 4c.** Enter the sum of lines 4a and 4b.

**Line 5.** Enter the number of units or gallons of fuel used in operations other than exempt local transit services or school bus transit.

**Note:** The sum of lines 4c and 5 must equal line 3.

**Line 6.** Section 8655 of the Revenue and Taxation Code imposes a tax of 1 cent per unit/gallon on the fuel used for local transit services or school bus transit.

**Line 7.** Enter the amount of tax computed on the units/gallons for which exemption is claimed in line 4c. Multiply line 4c by line 6.

**Line 8.** Tax rate on fuel used in non-exempt bus operations.

**Line 9.** Enter the amount of tax computed by multiplying line 7 by the tax rate shown on line 8 for each type of fuel.

**Line 10.** Add lines 7 and 9.

**Line 11.** Enter the amount of the Use Fuel Tax paid to the vendor on fuel purchased in California. Do not include the federal fuel tax or state and local sales and use taxes.

**Line 12.** Subtract line 11 from line 10 and enter the difference on line 12. If line 10 is greater than line 11, enter the amount of tax due with this return. If line 11 is larger than line 10, indicate the credit by entering a minus sign (-).

**Line 13.** Combine columns A, B, C, D, and E of line 12 and enter the total on line 13. If the total on line 13 results in a credit, enter the amount as a negative number. ***Do not claim credit on future returns; a refund will be processed.***

**Line 14.** If you are paying your tax on line 13 and/or filing your return after the due date shown on the front of this return, you will owe a penalty of 10 percent (0.10) of the amount of tax due. Enter the penalty by multiplying the tax due on line 13 by (0.10) and enter here. Returns and payments must be postmarked or received by the due date of the return to be considered timely. If the due date falls on a Saturday, Sunday, or state holiday, returns postmarked or received by the next business day will be considered timely.

**Line 15.** If you are paying your tax on line 13 after the due date shown on the front of this return, you will owe interest. The interest rate noted on the front of this return applies for each month, or fraction of a month, that your payment is late. Enter the interest by multiplying the tax due on line 13 by the interest rate shown, then multiply the result by the number of months, or fraction of a month, that have elapsed since the due date and enter here.  
You may use the Interest Calculator (go to [www.cdtfa.ca.gov](http://www.cdtfa.ca.gov)) on the CDTFA website for help calculating the interest due.

**Line 16.** Enter the total amount due and payable by adding lines 13, 14, and 15. If claiming a refund, enter the amount of the refund claimed as a negative number.

**Note: Gallons vs. Units:** Fuel transactions are reported in terms of gallons, except for compressed natural gas (CNG) and liquefied natural gas (LNG), which are reported as units. For tax reporting purposes, 126.67 cubic feet or 5.66 pounds (gasoline gallon equivalent) of CNG measured at standard pressure and temperature (14.73 pounds per square inch at 60 degrees Fahrenheit), and 6.06 pounds (diesel gallon equivalent) of LNG will be shown as one unit.
