INSTRUCTIONS**GOVERNMENT ENTITY DIESEL FUEL TAX RETURN**

(User of Fuel Under Revenue and Taxation Code sections 60050, 60100 (a)(5)(D), and 60108)

GENERAL INFORMATION

The California Department of Tax and Fee Administration (CDTFA) is responsible for collecting taxes under the Diesel Fuel Tax Law.

Every government entity owes diesel fuel tax on diesel fuel used to operate motor vehicles on the highway. You are allowed to use both dyed and undyed diesel fuel on the highway. You must pay the diesel fuel tax directly to your supplier on purchases of undyed diesel fuel. Purchases of dyed diesel fuel used on the highway must be reported and the tax paid with this return.

FILING REQUIREMENTS

The return must be filed on or before the last day of the calendar month following the period for which the tax is due. A return must be filed even if no tax is due. Be sure to sign and mail your return. Make a copy of this document for your records.

PAYMENTS

To make your payment online, go to our website at www.cdtfa.ca.gov and select the "Make a Payment" header link. You can also pay by credit card on our website, or by calling 1-855-292-8931. If paying by check or money order, be sure to include your account number.

DEFINITIONS

Government entity means this state and its political subdivisions, except for a political subdivision that is only an exempt bus operator.

Exempt bus operator is a transit district, transit authority, school district, community college district, or county superintendent of schools, as described in Revenue and Taxation Code sections 60039 and 60040.

Dyed diesel fuel means diesel fuel that is dyed under the United States Environmental Protection Agency or the Internal Revenue Service rules for high sulfur diesel fuel or low sulfur diesel fuel or any requirements subsequently set by the United States Environmental Protection Agency or the Internal Revenue Service and considered destined for nontaxable, off-highway uses.

Undyed diesel fuel means diesel fuel that is not subject to United States Environmental Protection Agency or Internal Revenue Service diesel fuel dyeing requirements.

DEFINITIONS (CONTINUED)

Highway means any road inside California that is publicly maintained and open to the public for motor vehicle travel. Roads that qualify as highways include both interstate freeways and publicly maintained surface streets. A road within a federal area such as a national forest or military reservation also qualifies as a highway, provided it is publicly maintained and open to the public.

Roads that do not qualify as highways include:

- A road within a national or state forest, such as a logging road, that is privately constructed or maintained
- A road in a federal area that is restricted from public use
- A publicly maintained or constructed roadway that is not open to public vehicular use, for example, a bike path, a freeway under construction, or a street closed for repairs

PREPARATION OF THE TAX RETURN

- Line 1.** Enter the total gallons of undyed diesel fuel purchased in the appropriate column (A or B).
- Line 2.** Enter the total gallons of dyed diesel fuel purchased in the appropriate column (A or B).
- Line 3.** Enter the total gallons of undyed diesel fuel sold in the appropriate column (A or B).
- Line 4.** Enter the total gallons of dyed diesel fuel sold in the appropriate column (A or B).
- Line 5.** Enter the total gallons of undyed diesel fuel used in the appropriate column (A or B).
- Line 6.** Enter the total gallons of dyed diesel fuel used in the appropriate column (A or B).
- Line 7.** Enter the total gallons of diesel fuel used. Add lines 5 and 6, columns A and B.
- Line 8.** Enter the total gallons of both dyed and undyed diesel fuel used off-highway. This amount must be included in the total gallons shown on line 7 for columns A and B.
- Line 9.** Enter the total gallons of diesel fuel used on highway. Subtract line 8 from line 7 for columns A and B.
- Line 10.** The current and previous rate of tax per gallon.
- Line 11.** Subtotal of tax due on diesel fuel used on highway. Multiply gallons on line 9 by the tax rate on line 10 for columns A and B.
- Line 12.** Enter the total tax due on diesel used on highway. Add columns A and B of line 11.
- Line 13.** Enter the amount of California diesel fuel tax paid to a retail vendor in California on the diesel fuel that is included in line 5. If you purchased tax-paid fuel at a prior rate but used the fuel in the current period, complete the *California Undyed Diesel Fuel Worksheet* on the back of the return.
- Line 14.** If line 12 is greater than line 13, enter the difference as tax due. If line 13 is greater than line 12, enter the difference as a negative amount (refund). A refund will be processed for this amount. **Do not carry tax credits forward to another return.**
- Line 15.** If your payment is made, or your tax return is filed, after the due date shown at the top of the return, you must pay a penalty of 10% (0.10). Multiply the tax on line 14 by 0.10 and enter the result on line 15. This does not apply to credit amounts.
- Line 16.** If your payment is made after the due date shown at the top of the return, you will owe one month's interest for each month or fraction of a month that payment is delayed after the due date. The adjusted monthly interest rate is indicated on line 16 of your return. To calculate the interest due, multiply the tax due on line 14 by the monthly interest rate shown on line 16, then multiply this total by the number of months or fraction of a month payment is delayed. Enter the result on line 16.
- Line 17.** Enter the total amount due and payable by adding lines 14, 15, and 16. If claiming a refund, enter the amount of refund claimed on line 14 as a negative number.
