I. Overview of Alcoholic Beverage Tax Supplemental Reports

Purpose of Alcoholic Beverage Tax Supplemental Reports

Supplemental reports provide the detail needed by alcoholic beverage taxpayers, reporters, and refund claimants (all referred to as filers) to compute and support their tax returns, reports, and claims for refund (filings). Returns must be complete and supported by the necessary supplemental reports. Supplemental reports must be filed at the same time the filing is made. California Department of Tax and Fee Administration (CDTFA) staff uses the information on the supplemental reports to verify that amounts are reported timely and accurately and also to verify that information pertaining to transactions between companies is properly reported.

Who May Need to File Supplemental Reports

The following table specifies which filers may need to file supplemental reports, the relevant form number, and tax form each is required to file.
