Tobacco Products – Section 30121(b)

**Bulk Tobacco.** Bulk tobacco is unfinished tobacco that is not in consumer packaging or portioning. A manufacturer may process bulk tobacco into a finished condition and package it for consumers. Bulk tobacco is a tobacco product as defined in Section 30121(b) because it contains tobacco and it is intended for human consumption after it is manufactured into a finished tobacco product. It is not a statutory requirement that the tobacco be a finished product in order to be a tobacco product pursuant to Section 30121(b). 1/2/20
