Compliance Policy and Procedures Manual

Chapter 4

Security

Business Tax and Fee Division
California Department of Tax and Fee Administration

This is an advisory publication providing direction to staff administering the Sales and Use Tax Law and Regulations. Although this material is revised periodically, the most current material may be contained in other resources including Operations Memoranda and Policy Memoranda. Please contact any California Department of Tax and Fee Administration office if there are concerns regarding any section of this publication.
# Security

## General Statement on Security

## Assignment of Security Deposit

**General**

**Purpose of Assignments**

**Conditions Under Which This Procedure Should Not Be Used**

**Assignment of Security, CDTFA-454**

**Preparation of the CDTFA-454**

**Security Deposit Record, CDTFA-487-C**

**Deposit Made in Installments**

**For Headquarters Records**

## Transmittal of Security or Security Documents

**Cash Deposits — CDTFA-487-C**

**Surety Bonds and Riders**

**Guaranty, CDTFA-140 and Endorsement to Guaranty, CDTFA-140-A**

## Decreases in Security or Partial Refunds

**General**

**Decrease of Cash Deposit Amount**

**Decrease of Certificate**

**Decrease of Surety Bond**

## Refund of Cash Deposits in Office of Control

**Refund of Cash Deposits — Procedural Policies**

**Returned Cash Deposit Refund Procedures**

**Uncashed Cash Deposit Refund Procedures**

**Preparation of Cash Deposit Refund Checks**

**Endorsement of Cash Deposit Refund Checks**

**Processing of the CDTFA-1035**

**Office Verification**

**Close-Out Audits and Releasing Security Deposits**

**Guidelines for Redeeming and/or Converting Time Deposit and Savings Accounts Held as Security Deposits**

**Disposition of Insured Accounts and Liquid Security When The Taxpayer Cannot Be Located or the Financial Institution Fails**

## Jeopardy Determination Security

**General**

**Amount of Security**

**Processing**

## Claims upon Security from Outside the CDTFA and Lien Demands

**General**

**Lien Demands on Other State Agencies**

**Lien Demands on the CDTFA — Office of Control Action**

**Lien Demands on the CDTFA—Headquarters Action**
Payment other than Security to Other State Agencies 455.000
Order of Priority of Liens .................................................................................. 455.040

Liquidation of a Surety Company ........................................................................ 465.050
Surety Company Name and Ownership Changes .................................................. 465.060
The California Department of Tax and Fee Administration (CDTFA) is required to obtain or authorized to impose a security deposit from a permit or license applicant subject to certain limitations. The various tax and fee programs administered by the CDTFA have unique security deposit requirements. The table in CPPM 405.030 summarizes the applicable minimum and maximum security deposit amounts for other programs than the sales and use tax program.

Revenue and Taxation Code (RTC) section 6701 authorizes the CDTFA to require “any person” subject to sales and use tax law to post a security deposit to help ensure compliance. For sales and use tax accounts, the minimum amount for a security deposit is $2,000. The maximum amount by statute may not exceed $50,000. The security deposit requirement follows the person, not the account. Therefore, if a person has posted a security deposit or deposits totaling $50,000 and opens another business under a new seller’s permit, no additional security may be requested.

The security provisions for tax and fee programs where security is not mandatory, must be judiciously administered. All relative factors will be considered when setting the amount of security to be posted and unusual or excessive demands should not be made. (See CPPM 405.020 for security deposit policy for new accounts.)

When a security deposit is required, the taxpayer is given a copy of the CDTFA–598, Notice of Security Requirements, and from the types listed, allowed to select the security deposit best suited to the taxpayer’s circumstances. The taxpayer should be given a reasonable length of time (normally 30 days) to post the deposit. A security deposit may also be made in installments (CPPM 410.010). In these cases, the 30-day period may need to be extended. However, if the taxpayer fails to post the deposit within the timeframe allotted, the account will be scheduled for revocation (See CPPM 340.000). Issuing a seller’s permit will not be delayed pending receipt of a security deposit.
General Guidelines

In general, security deposits are not required from taxpayers applying for a permit with CDTFA unless security is mandated by law. Under exceptional circumstances, staff may request security from taxpayers with a history of non-payment or those which pose a high compliance risk. This requires supervisory approval.

In determining whether or not security is necessary to protect the interest of the state, consideration should be given to the applicant’s payment history, if any, with the CDTFA. If the applicant has held prior permits, his or her history may indicate future actions. A poor payment history includes acts such as multiple delinquent returns, multiple liabilities, and/or multiple revocations.

Business Owners

As noted above, if the owner(s) of the business (sole proprietor, partnership, corporation, LLC, joint venture, fraternal associations, etc.) does not have a history of payment problems with the CDTFA, no initial demand for security will be made unless required by statute. However, when appropriate, taxpayers should be advised that failure to meet their reporting and payment requirements may result in the CDTFA demanding the maximum amount of security allowed by law. The taxpayer should also be advised that failure to post security when required may result in revocation of the seller’s permit. (Note: Certificate of Registration-Lender (SL) accounts are not required to post a security deposit).
The current maximum security for sales and use tax is $50,000 pursuant to RTC section 6701. Except as noted below, the maximum amount of security for persons filing returns for quarterly periods is twice the estimated average quarterly tax liability, or for persons required to file monthly tax returns, the maximum amount of security is three times the estimated average liability. The maximum amount of security for a person who has been given a notice of hearing pursuant to RTC section 6070 to show cause why his or her permit should not be revoked, or a person whose permit has been revoked, is three times the average quarterly tax liability or five times the average monthly tax liability. If an applicant applies for a new permit but previously had an account that was cited or revoked, the security required would be three times the average quarterly tax liability or five times the average monthly tax liability, as the taxpayer has established a poor payment history.

Per CDTFA policy, the amount of security for prepayment accounts is one quarter’s estimated tax liability. CDTFA policy states that the maximum amount of security for a prepayment account which has been given a notice of hearing to show cause why the permit should not be revoked or for a person whose permit has been revoked is twice the average quarterly tax liability.

The CDTFA has established a minimum security policy of $2,000 unless otherwise set by statute. Therefore, if the amount of security required is computed to be less than $2,000, security will be waived. The following table summarizes the applicable minimum and maximum security required for taxes and fees administered by the CDTFA other than sales and use taxes.

</table>
Note 1: The amount of security shall not be more than three times the estimated average monthly tax liability, however, the total amount of security shall not be in excess of $1,000,000 where the person has established to the satisfaction of the CDTFA that it has equity in real property to which a lien imposed by either Section 7872 or Section 60445 would attach.

Note 2: Set by statute.

Note 3: If a distributor desires to defer payments for stamps or meter register settings, the CDTFA shall require a security deposit equal to not less than 70, 50, or 25 percent of the amount and no more than twice the amount (based on the deferred payment plan elected), and no more than twice the amount, as fixed by the CDTFA of the distributor’s purchases of stamps and meter register settings for which payment may be deferred.

Note 4: The maximum amount will be not more than twice the taxpayer’s estimated monthly tax for taxpayers reporting monthly or not more than twice the taxpayer’s estimated tax for the tax reporting period for taxpayers reporting for periods longer than one month.

**RELEASE AND REFUND OF SECURITY — ACTIVE ACCOUNTS 405.035**

RTC section 6701 states that security shall be released after a three-year period in which the person has filed all returns and paid all tax to the State or any amount of tax required to be collected and paid to the State within the time period.

Similar language to RTC section 6701 can be found in RTC sections 7486 (Motor Vehicle Fuel Tax Law], 60401 (Diesel Fuel Tax Law), 40036 (Energy Resource Surcharge), and 4101 (Emergency Telephone Surcharge).

The above includes all types of ownership. As a matter of policy, unless statutorily prohibited, the CDTFA will release security deposits that meet the following criteria:

1. The security deposit has been held for at least three years.
2. The account has no current accounts receivable (includes both final and non-final liabilities, but does not include unbilled differences).
3. The account has no current delinquent return(s).
4. The account has no more than two instances within the last twelve months of non-compliance with items two and three above. For this criteria, staff will use the Statement date, Demand date or the Notice of Determination date for accounts receivable. If a liability has both a Notice of Determination date and a Statement date or Demand date, staff will use the Statement date or Demand date. For delinquencies, the delinquency established date will be used.

For accounts in which the security deposit is paid in installments, look at the effective date of the first payment to determine the start of the three-year period. If the first payment is three years old and the account meets the other release criteria, all of the security deposit will be released.

A list of accounts with security held for three years, which appear to meet the criteria for refunding, is produced from the Security System each month. The list is e-mailed to the office of control for the accounts at the beginning of each month. The eligible deposits must be released before the end of each month.
A denial letter will be mailed to taxpayers if the security deposit does not meet the release criteria. The denial letter informs the taxpayer of the reason the security deposit is not eligible for release and that their account will be reviewed again in six (6) months. A contact name for each office of control is provided in case a taxpayer has questions regarding the release of the security deposit. The denial letters will be automatically generated by IRIS.

As part of the security review process for accounts with a three-year good record, the release (termination) of guaranties and surety bonds may now be initiated by the CDTFA with an immediate effective date. In cases where the CDTFA initiates a release of security, the release of security is not contingent upon receipt of a written request received by the taxpayer.

Personal guaranties and surety bonds that are eligible for release must have the security requirement ended in the Security System. This is done by entering an “E” in the action field on the SEC RQ screen. The taxpayer should then be notified of the cancellation by sending a CDTFA–168–B, Notification of Surety Bond Non-Renewal, or CDTFA–168–C, Release of Personal Guaranty, depending on the type of security released. A memorandum or an e-mail must be sent by the Administrator or designated supervisor to the Registration and Security Control Unit in the Local Revenue Allocation Unit (LRAU) requesting to end the security record.

When the list is received by the Registration and Security Control Unit, staff will update the cancellation information on the Security System by entering an end date for the surety bond or personal guaranty. The effective date will be the date of the memorandum or e-mail.

For special taxes and fees accounts, the appropriate Administrator or designated supervisor will send an e-mail or memorandum to staff handling security deposits requesting to end the security record. When the list is received, the cancellation information will be updated. The effective date of cancellation will be the date of the memorandum or e-mail.

The surety bond should not be exonerated unless the CDTFA receives a request from the bonding company and the account meets the requirements as stated in CPPM 410.025.

These changes do not affect the law or current policy and procedures for guarantors and bonding companies that wish to terminate a guaranty or surety bond. Guarantors and sureties must notify the CDTFA, in writing, of the intention to terminate the guaranty or surety bond. The cancellation is effective 30 days from receipt of the request.

**INCREASING SECURITY REQUIREMENTS 405.040**

It is the policy of the CDTFA not to increase security unless the increase is necessary for the protection of the state’s interest. The amount of security required at the time the application is filed should not be increased merely because the amount of tax later reported is greater than originally anticipated. However, in some instances, a reasonably accurate estimate cannot be made at the time of application, and it is necessary to re-examine the security requirements after the business has operated for several months. In such cases, the applicant must be made aware that security requirements are subject to a later review. After review, the security should be adjusted accordingly. This procedure should be necessary only in a limited number of cases. Where applicants have made extremely conservative estimates relating to sales volume the amount may be increased without delay.

When a taxpayer presents a collection problem, the adequacy of security should be reviewed. If it is found that security is not the maximum permitted under the law and it is determined that additional security should be posted, the additional amount should be demanded. (See CPPM 405.030).

If after giving the taxpayer notification of the additional security amount required, and the security is not posted within thirty (30) days, the taxpayer should be cited for revocation of the permit for failure to post security (See CPPM 340.000 et. seq.).
SECURITY UNDER BANKRUPTCY 405.043

Trustees or debtors who operate businesses after the debtor has filed for protection under the Bankruptcy Code are required to conduct the operation according to the laws of the State in which they operate the business. A person’s filing for protection under the Bankruptcy Code is not a basis for increasing or demanding security. Any security on deposit should remain on deposit as the security is being held in trust for the sales and use tax and for special taxes and fees (except for the Fee Collection Procedures Law). However, if the security is released, it will be released to the trustee. The CDTFA may increase security under appropriate circumstances as provided in CPPM 405.040.

SECURITY ADJUSTMENTS AND CHANGE OF REPORTING BASIS 405.045

Additional security is not required when the reporting interval of an account (reporting basis) is shortened or extended, unless the change is necessary to address an unsatisfactory reporting or payment record of the taxpayer.

RESPONSIBILITY OF THE OFFICE OF CONTROL FOR SECURITY 405.050

The offices of control are responsible for determining the amount of security required of the taxpayer and have full control over the establishment of the security account, the preparation of security receipt advice documents, and the preparation of forms to correct, transfer, release or terminate a security account record.

Each office of control will maintain a file that contains a copy of each CDTFA–487–C, Cash/Liquid Security Deposit Advice, with corresponding certificates attached. The file will be kept in terminal digit order. Security measures in accordance with policy established for controlled forms will be taken to ensure safekeeping of these files.

Cash security is refunded by the office of control. Each office of control has an allotted number of CDTFA checks. These checks are written for refunds to the taxpayer. Each check is reconciled by the Accounting Section to verify the check numbers issued and amounts issued by the office of control. If excess cash security is released in error, the office of control must recover the funds. Once the funds are recovered, the office of control needs to send an explanatory memorandum and the funds to the Accounting Section for deposit in the security deposit bank account.

Comments in IRIS

Staff should be adding comments in the IRIS system when the following occurs:

1. The security documents (i.e. TCD’s) are mailed to the tax/fee payer after the security has been released.
2. The security deposit is released outside the release guidelines.
3. The returned check, TCD or bond/guaranty is mailed to a different address.
4. The CDTFA–168B, Notification of Surety Bond Non Renewal or the CDTFA–168C, Release of Personal Guaranty has been mailed.
5. The taxpayer calls with questions regarding the release of his or her security.
6. The mailing address has been confirmed on closed out accounts when mailing the security deposit check or other security documents.
7. The security deposit is not being released on a closed out account.
Security

Responsibility of the Office of Control for Security (Cont.) 405.050

Inter-office Cooperation

If the taxpayer mails the security document (i.e. TCD/Bond) to the incorrect office, the document will be forwarded to the office of control. However, cash deposits will be processed at the office where it was received. Walk-ins will be processed at any office and the documentation will be forwarded to the office of control and, when applicable, to the Local Revenue Allocation Unit. Comments will be added in the IRIS system documenting the transactions.

HEADQUARTERS RESPONSIBILITY — SECURITY 405.055

Registration and Security Control Team in Return Analysis and Allocation Section

The field office is responsible for establishing, transferring and releasing security transactions while the Registration and Security Control Unit is responsible for overseeing the processes of correcting, terminating and approving security deposit record transactions. Periodic security inventory listings and other pertinent data are produced from the information in the system for both the field offices and Headquarters.

Offices of control for special taxes and fees accounts handle all aspects of security maintenance for their accounts.

Accounting Section

The Accounting Section is responsible for the Security Trust Fund accounting and preparation of financial statements for submission to control agencies. It is also responsible for the bank account maintained for the exclusive use of Security Trust deposits and disbursements. This also includes the issuance of the blank check stock to offices of control and overseeing the blank check stock accountability.

The Accounting Section reconciles the security processed by the offices of control to the actual cash received, as reported by the Cashier Unit. All security transactions are recorded to reflect the CDTFA’s liability for the security collected from taxpayers or refunded to taxpayers. The liability is specific to the type of security collected, i.e. time certificates, cash, etc. Financial statements are prepared to reflect the status of this fund.

The Accounting Section is solely responsible for issuing replacement (in-lieu) checks to taxpayers whenever the original checks are lost. Whenever checks are returned, the Accounting Section determines when disposition to the Unclaimed Trust Fund is warranted.

UNIFORM SECURITY — SUBSIDIARY CORPORATIONS AND FRANCHISED OUTLETS 405.075

No action will be initiated by any field office to establish a uniform statewide security policy for subsidiary corporations or franchisees unless a request is received from the parent corporation or the field office determines that inequities in the treatment of the taxpayer exist.

When such cases are discovered, they should be referred to the office of control where the main business office is located or where the person with authority to act on behalf of the parent corporation is located. That office will investigate and decide the appropriate security requirements.

The decision made by the office of control will represent the CDTFA’s policy in connection with the overall operations of the subsidiaries or franchisees. If it is decided that all subsidiaries or franchisees shall be required to post security, then security in an amount provided for in RTC section 6701 will be required by any office in which an application is filed. If the office of control concludes that the parent corporation is to be allowed to guaranty the tax of its subsidiaries or franchisees, then each office in which an application is filed will accept the guaranty of the parent corporation. The guaranty should contain a penal sum conforming to the guidelines of RTC section 6701, but not less than $5,000. The penal sum of a bond is the maximum amount specified in the bond for which a surety can be held liable.
Determination of Acceptability

By careful analysis of their financial documents, the office of control should determine the franchisor’s or parent corporation’s ability to satisfy its outstanding guaranties.

Office of Control Procedure

The office issuing the seller’s permit will verify the acceptability of a parent corporation or franchisor’s guaranty by contacting the office of control. It will be the responsibility of the controlling office to keep their files current and to notify the parent corporation or franchisor when the CDTFA will no longer accept it as a guarantor for their subsidiaries or franchisees.

MANDATORY SECURITY REQUIREMENT FOR CIGARETTE AND TOBACCO PRODUCTS DISTRIBUTORS

Revenue and Taxation Code section 30141 requires every cigarette and/or tobacco products distributor to furnish mandatory security in the amount and form as prescribed by the CDTFA. Pursuant to RTC 30142 (a), the minimum amount of mandatory security for any cigarette and tobacco product distributor is one thousand dollars ($1,000). Mandatory security shall be released in a timely manner if the distributor’s account(s) is in good standing with the CDTFA upon completion of the close-out review.

SECURITY REQUIREMENTS FOR DEFERRED PAYMENTS OF CIGARETTE TAX STAMPS

Pursuant to RTC section 30142 (b), a licensed cigarette distributor may furnish security for the purpose of deferring payments for cigarette tax stamps or meter register settings. Additionally, RTC 30168 (a)(1), (a)(2), and (a)(3) provides distributors several options for deferred payments and security requirements (see below). A distributor may request deferred payments for their purchases of cigarettes tax stamps by completing a CDTFA-356 Cigarette Distributor’s Application for Deferred Payment Option. Upon receipt of the request, the Program and Compliance Bureau’s Registration and Licensing Section will determine the cigarette distributor’s security requirement and deferred purchase credit limit.

Monthly Deferred Payment - If a licensed cigarette distributor elects to make payments for stamps or meter register settings on a monthly basis, the CDTFA shall require security equal to not less than 70 percent of the amount and no more than twice the amount, as fixed by the CDTFA, of the distributor’s purchases of stamps and meter register settings for which payment may be deferred. The distributor will be required to remit the payment on or before the 25th day of the month following the month in which the stamps were purchased.

Twice Monthly Deferred Payment - If a licensed cigarette distributor elects to make payments for stamps or meter register settings on a twice-monthly basis, the CDTFA shall require security equal to not less than 50 percent of the amount and no more than twice the amount, as fixed by the CDTFA, of the distributor’s purchases of stamps and meter register settings for which payment may be deferred. The distributor shall make two remittances during the month following the month in which the stamps and meter register settings were purchased. The first monthly remittance shall be made on or before the 5th day of the month and shall be equal to either one-half of the total amount of those purchases of stamps and meter register settings that were made during the preceding month or the total amount of those purchases of stamps and meter register settings that were made between the first day and the 15th day of the preceding month, whichever is greater. The second monthly remittance shall be made on or before the 25th day of the month for the remainder of those purchases of stamps and meter register settings that were made in the preceding month.
Security Requirements for Deferred Payments of Cigarette Tax Stamps (Cont.) 405.085

Weekly Deferred Payment with Security - If a licensed cigarette distributor elects to make payments for stamps or meter register settings on a weekly basis, the CDTFA shall require security equal to not less than 25 percent of the amount and no more than twice the amount, as fixed by the CDTFA, of the distributor’s purchases of stamps and meter register settings for which payment may be deferred.

The distributor will be required to:

1. Remit the payment on or before Wednesday following the week in which the stamps and meter register settings were purchased.
2. Provide to the CDTFA and update, as necessary, an email address for the purpose of receiving payment information, including, but not limited to, amounts owing for stamps and meter register settings purchased.

Weekly Deferred Payments with No Additional Security - Pursuant to Revenue and Taxation Code section 30142 (d), a licensed cigarette distributor may elect to defer payments for stamps or meter register settings purchases without posting additional security if the distributor’s average monthly purchase of stamps for the previous 12 months does not exceed seventy-two thousand (72,000) stamps or meter register settings, and the distributor meets all of the following requirements:

1. Has been licensed under this part for a minimum of five years;
2. Has not been delinquent in the filing of any reports or returns required under this part for the preceding three consecutive years;
3. Has not been delinquent in the payment of any tax under the Cigarette and Tobacco Products Tax Law, or for any other tax or fee administered or collected by the CDTFA, for the preceding three consecutive years;
4. Provides to the CDTFA and updates, as necessary, an email address for the purpose of receiving payment information, including, but not limited to, amounts owing for stamps and meter register settings purchased;
5. Any other criteria the CDTFA may require.

The distributor will be required to remit payment for stamps purchased on the deferred-payment basis without additional security on or before Wednesday following the week in which the stamps were purchased.
Compliance Policy and Procedures Manual

TYPES OF SECURITY 410.000
TAXPAYER’S CHOICE OF SECURITY 410.005

When security is required, the applicant is given a copy of the CDTFA–598, Notice of Security Requirements, and allowed to select the type of security he or she prefers. Under no circumstances will the taxpayer be referred to a specific bank, saving and loan association, credit union, or bonding agent which may provide the security.

The CDTFA–598, Notice of Security Requirements, is automatically printed by the on-line security system when the requirement is added, and is used to notify the taxpayer that initial security, additional security, or replacement security is required. A copy is retained by the office of control and used as a follow-up system and reminder to cite the account on-line when security is not posted.

Subject to specific conditions, five types of security are acceptable for purposes of fully complying with the security requirements of the CDTFA. These are:

1. Cash Deposits
2. Deposit accounts in banks, savings banks, and savings and loans including Insured Accounts, Fully Paid Investment, Bonus Investment Certificates and Accumulative Investment Certificates
3. State and Federal Credit Union Shares
4. Surety Bonds
5. Letter of Credit (applicable only for Cigarette Distributor accounts on deferred payment of cigarette tax stamps issued by the Registration and Licensing Section)

There are two “types” of deposits that indicate why the security is taken and under what conditions it is to be refunded.

1. Regular — A continuing deposit which may be any of the acceptable types of security to cover any of the tax programs. This is the normal security deposit posted by the taxpayer to ensure payment of tax liability. After the security has been held for three years and it meets the release criteria, the security will be released (See CPPM 403.035). However, if the account is closed out, the deposit is applied to any unpaid liability before it is released to the depositor.

2. 3rd Party — A deposit made by a “third party” such as a finance company, dealer or some person other than the taxpayer to obtain a tax clearance. The deposit is refunded to the person who made the deposit when the tax is determined and payment made by the taxpayer or when the deposit is made for an offer in compromise and the offer is not accepted. If collection cannot be made from the taxpayer, the deposit will be applied to amounts due to the date of deposit. For instructions on application of Third Party Deposits see CPPM 410.080.

April 2016
CASH DEPOSITS — TAXPAYER’S CHOICE 410.010

Cash deposits may be made by cash, money order, cashier’s check, or personal check and may be accepted in installments (see On-Line Security User Manual pages 1–6). When the taxpayer is unable to post the full amount, a security deposit installment payment agreement may be established for a maximum of twelve payments. A security requirement which can not be completed in twelve months will be reviewed after the 12th month.

Cash is not considered available for application until the date of closeout, or until security is no longer required. If a cash deposit is to be released while the account is still active, and is to be applied entirely or partially to any liability, the security is considered available as of the date the CDTFA determines it is no longer needed. Cash deposits do not earn interest as these funds are held by the Office of the State Treasurer, who lacks the statutory authority to pay interest on deposit. Therefore, staff should encourage taxpayers to post security in interest bearing accounts such as time certificate of deposits. A cash deposit posted by personal check cannot be refunded until sufficient time has elapsed to allow for clearance of the check by the bank.

DEPOSIT ACCOUNTS 410.015

To be accepted as security, deposit accounts in banks, savings banks, and savings and loans that are submitted as security must:

1. Be issued by a bank insured by the Federal Deposit Insurance Corporation.
2. Have the California Department of Tax and Fee Administration as the account holder (for example: California Department of Tax and Fee Administration, F.B.O. depositor’s name).
3. Must be automatically renewable at the date of maturity and may include a right of cancellation clause.
4. Have any interest earned paid to the depositor, not to the CDTFA.

In most cases, deposit accounts are accepted only from financial institutions located in California. Taxpayers should not be required to post a time certificate of deposit in an amount less than $2,000, except for installments in amounts less than $2,000 (the Cigarette and Tobacco Products Law requires minimum security of $1,000).

An exception to the “in-state branch” rule exists for security deposits posted for out-of-state Wine Direct Shipper accounts. Business and Professions Code section 23661.2 provides that an individual or licensee in a state that affords California licensees or individuals an equal reciprocal shipping privilege, may ship, for personal use and not for resale, no more than two cases of wine (no more than nine liters per case) per month to any adult resident in this state. The out-of-state wine direct shipper must apply with the CDTFA and obtain a seller’s permit. Under the Sales and Use Tax Law, such a seller may be required to post a security deposit. It is permissible to accept a security deposit from an out-of-state bank to avoid the unnecessary complication of having out-of-state wine direct shippers open a bank account with a California financial institution for the sole purpose of posting a security deposit. Although not issued by the CDTFA, the out-of-state wine direct shipper must also obtain a Type 82 license and post a $500 security deposit with the Department of Alcoholic Beverage Control.

The original evidence of deposit, such as the certificate or deposit receipt (when a certificate is not issued) must be submitted to the CDTFA. The name of the depositor on the deposit account should agree with that of the taxpayer(s) on the application (not the firm name or DBA). An exception may be made in rare instances, such as married co-ownership situations or partnerships. An original evidence of deposit should not be accepted when the sole depositor is not listed as an owner, partner, or spouse of the owner. However, it may also include DBA’s or names of others having an interest in the security as a protection of their interests.

December 2008
Compliance Policy and Procedures Manual

Deposit Accounts

Financial Institution Acknowledgement

The CDTFA will request authorized representatives of savings institutions to complete the acknowledgement portion of the second page of the CDTFA–598. The signed acknowledgement portion shows that the savings institution understands its liability for funds transferred or released without a CDTFA release endorsement. The signed acknowledgement is to be kept with the original evidence of deposit in the office of control.

Waiver of Early Withdrawal Penalty

The CDTFA will request authorized representatives of savings institutions to agree to waive the early withdrawal penalty agreement and complete the agreement portion of the second page of the CDTFA–598.

Surety Bonds

These are bonds executed by the taxpayer as principal and issued by a surety corporation that is authorized to conduct business in this state. Surety bonds have an effective starting date and the surety has no liability for amounts incurred prior to that date. A surety can be held liable only for that amount which is measured by transactions occurring during the period the bond was in effect.

Surety bond forms must be signed by an attorney-in-fact or by a representative of the bonding company.

Taxpayer Named on Surety Bond

Surety bonds must be written indicating the name of the principal substantially as shown on the permit or license.

In this regard, for an individual or partnership account, the first name, an initial or initials are acceptable, provided the surname or surnames are correct. Initials only, however, with certain common names, i.e., Smith, Jones, Johnson, may pose an identification problem in the Registration and Security Control Unit when the surety bond is received directly with no identifying account number. Staff in the office of control may be asked to assist in the identification of such bonds if the need arises. All names, in the case of partnerships, must be shown.

For a limited partnership, the names of the general partners and the name of the limited partnership will be shown.

Surety Bond Verification

Upon receipt of the bond, staff must verify the bond contains the following information:

1. The correct taxpayer's name.
2. The physical address of the business must be listed. Addresses listing a PO Box will not be accepted.
3. The penal sum is the same as the amount requested by the CDTFA.
4. The date the bond became effective.
5. An original signature of the attorney-in-fact or a representative of the bonding company.
Surety Bond Terminations and Principal Sum Reduction Riders

Surety terminations are directed to the CDTFA by surety companies in writing and they must be signed by the attorney-in-fact. Properly executed termination notices become effective thirty (30) days after receipt by the CDTFA. The penal sum of any bond, which is the maximum amount specified in the bond for which a surety can be held liable, can be changed only by a rider executed by the surety. A rider decreasing the principal sum of the bond becomes effective thirty (30) days after its receipt by the CDTFA.

Successor’s Liability

Unlike other types of security, a surety can never be held liable for an amount of sales or use tax due from its principal under successor’s liability.

Surety Bond Exoneration

Requests from surety or taxpayers for the exoneration of a bond will involve a cooperative effort on the part of the office of control, the Registration and Security Control Unit and the Collections Support Bureau (CSB).

Surety bond exoneration requests, which accompany payments from surety companies as a result of a demand on a surety bond, will be processed by the CSB. The CSB has responsibility for notification to the surety, demands on bonds, and other activity with respect to collection from surety.

Surety bond exoneration requests received in Headquarters will be sent to the Registration and Security Control Unit for an account number search only. When the office of control has been established, the request will be forwarded to that office for action. The office of control may also receive requests directly from surety companies. Staff must confirm that there are no accounts receivables or delinquent periods and no current or future audit activity is planned for the period in which the bond is in effect. The office of control will enter exoneration information into the on-line security system. If the exoneration is approved by the office of control, the CDTFA–1152, Exoneration of Bond, will be printed and mailed to the surety company. If the exoneration is denied, a CDTFA–322, Denial of Bond Exoneration, will be printed and mailed to the surety company. The system will require an on-line comment for either of the preceding two actions.

The Program and Compliance Bureau will process the exonerating requests for special taxes and fees accounts. Staff is reminded that once a bond is exonerated, it is no longer available for demand.

SURETY BOND TRANSFERS

Occasionally, riders or endorsements are received from sureties that would transfer a bond from one entity to another. This usually occurs when a partner is being added or dropped.

Such riders or endorsements transferring the bond from one entity to another are not acceptable if the predecessor is delinquent in reporting or paying or there is the potential for an audit-generated liability. The bond is issued for a specific penal sum and should demand be made for predecessor’s liability, the penal sum available for security under the successor’s amount is reduced by the amount demanded on account of the predecessor.

When the office of control elects to accept a rider or endorsement transferring a bond from one account to another, it will provide a statement to the effect that the predecessor’s account is clear and no audit-generated liability will be incurred. The statement will be signed by the Compliance Principal.
SAVINGS AND LOAN INSURED ACCOUNTS 410.030

There are various types of savings and loan insured accounts that the CDTFA will accept as security. The three types of insured accounts most widely accepted are the fully paid investment certificate, accumulative investment certificate, and the bonus certificate. Fully paid investment certificates are issued for $100 only or multiples thereof. The savings and loan institution is required to pay directly to the depositor the interest that accrues on the funds on deposit.

Accumulative investment certificates are issued for any amount and are not restricted to multiples of $100. The interest that accrues on these deposits is credited to the account and is paid to the depositor upon request and as a withdrawal. The passbook, savercard or passcard is not relinquished by the CDTFA to either the taxpayer or the association for purposes of posting interest accruals, interest withdrawals, or posting increases to the amount of the insured account. If the amount of the insured account is to be increased, the taxpayer will furnish the CDTFA with a deposit receipt in the amount of the increase and a new assignment form in the new total amount of the account. The deposit receipt will be held with the account passbook until such time as the insured account has been cashed or reassigned to the taxpayer.

If nothing is owing when an insured account is to be released, the CDTFA's interest in the funds on deposit is assigned back to the taxpayer. If, however, there is a liability owing, the evidence of the account (certificate, or deposit receipt and/or passbook, savercard or passcard) must then be sent to the savings and loan institution to be cashed. The savings and loan institution will then forward a check payable to the CDTFA for the proper amount.

ASSIGNMENT OF CERTIFICATE, CDTFA–597 410.032

The assignment of the CDTFA–597 is furnished by the Savings and Loan Association, not by offices of the CDTFA. However, copies may be obtained from the Supply Unit. An applicant who elects to purchase an investment certificate is instructed to contact an insured savings and loan association of his/her choice, where he/she will purchase the certificate and complete an assignment form. The certificate and the original and two copies of the assignment form are delivered to a CDTFA office.

The third copy is retained by the association so immediate effect can be given to the assignment. An authorized CDTFA representative accepts the certificate and assignment, and signs the “Receipt for Certificate and Direction to Pay Earnings.” The original copy of the assignment and one copy of the CDTFA–487–C, Cash/Liquid Security Deposit Advice, are attached to the certificate. These are filed in the office of control's security file. The first copy is returned to the issuing association and the second copy given to the applicant.

STATE AND FEDERAL CREDIT UNION SHARES 410.035

State and federal credit union shares may be accepted as security for the various tax programs administered by the CDTFA. The deposits are insured by the National Credit Union Administration (NCUA), an agency of the U.S. government. Credit union deposits that are not insured by the NCUA may otherwise be insured by American Share Insurance. Any questions on the acceptability of a particular credit union should be referred to the Registration and Security Control Unit.

The California Credit Union League will print and provide the assignment CDTFA–597–CU to their members. They are also providing instructions to their members on this procedure.

If nothing is owed when the account is to be released, the CDTFA's interest in the funds will be assigned back to the taxpayer. If there is a liability, evidence of the account or a copy of the assignment will be sent to the credit union. The credit union will then forward a check payable to the CDTFA for the amount requested.
ASSIGNMENT OF STATE AND FEDERAL CREDIT UNION SHARES TO THE CDTFA

As with Savings and Loan Associations, the assignment CDTFA–597–CU will be furnished by the credit unions, not by offices of the CDTFA. The applicant should be instructed to contact the credit union of his or her choice to initiate the assignment of the credit union shares to the CDTFA. The completed assignment form and two copies are then delivered to the CDTFA office. If possible, some additional evidence of the account (i.e., passbook, I.D. cards, etc.) should accompany the assignment. However, the completed assignment form will be sufficient documentation to approve and to process the security. The third copy of the assignment form is retained by the credit union. The same procedures are then followed as with the assignment of savings and loan certificates (CDTFA–487–C).

THRIFT AND LOAN ASSOCIATIONS

Thrift and loan associations are chartered by the Office of Thrift Supervision and are federally insured. However, these institutions do not meet all of the requirements of the CDTFA and merger-tracking information is not published or readily available. Therefore, security deposits issued by thrift and loan associations are not acceptable to the CDTFA.

GUARANTIES

Guaranties are a form of security, and subject to uniform guidelines. Before accepting any guaranty, information should be obtained regarding the prospective guarantor’s financial condition, past record and general stability. Staff should use available collection tools to confirm the guarantor has adequate assets. Non-liquid assets, such as ownership of real property, are required for approval of a guaranty.

WHEN TO ACCEPT GUARANTIES

In general, guaranties should be used only in the case of small, closely held corporations. They should not be accepted regularly from this type of entity in preference to other forms of security. Neither should they be accepted merely as an expedient method to overcome the taxpayer’s reluctance to post other forms of security. Guaranties from officers of corporations who live out-of-state should not be accepted unless their financial statements show adequate assets within the State. The penal sum of the guaranty will be included with other security in complying with the maximum limits allowed by RTC section 6701. Guaranties for less than $5,000 should not be accepted.
WHO MAY GUARANTY

Subject to the guidelines set forth in CPPM 410.040, guaranties may be accepted from:

1. Officers of a corporation to personally guarantee the corporate liability. A CDTFA–140 and financial statement should be obtained from all corporate officers of record unless it appears more desirable to accept a guaranty from the principal officer(s) and/or principal stockholder(s).

2. A corporation to guarantee the liability of individuals, partnerships or other corporations. A current financial statement of the guarantor corporation and a certified copy of the minutes of the guarantor corporation authorizing the binding of said corporation must be submitted. (Some consideration, other than mere friendship, should be evident between principal and guarantor.)

3. An individual to personally guarantee the liabilities of other individuals or entities (to be used in rare cases, e.g., a father to guaranty the liability of a minor child).

Personal guaranties may not be accepted from:

1. Any entity, corporation or otherwise, to guaranty its own liability.

2. One or more partners to guaranty the liability of other partner(s).

APPROVAL OF GUARANTIES

Personal guaranties will be accepted only with the approval of the Administrator, Compliance Principal, or Office Supervisor. A current financial statement of the proposed guarantor should be submitted for approval. If the CDTFA–140 and the financial statement are submitted simultaneously, it must be made clear to the potential guarantor that acceptance is dependent upon examination of his/her financial statement and approval by the reviewing authority.

If, during the period of a guaranty, it is determined that the guarantor is no longer suitable, appropriate security in some other form should be obtained. Also, if after three years of the guaranty being held, the taxpayer’s account still has a bad payment history, the taxpayer will be required to post another type of security. Once the security is replaced, the guaranty will be released. The taxpayer should be informed of this policy at the time of inquiry or at the time the guaranty is posted.

LIMITATION ON AMOUNT AND EFFECTIVE PERIOD

The limitation as to the amount for which a guarantor can be held liable will be the penal sum shown on the CDTFA–140 or CDTFA–140–A, if one is filed.

The limitation as to the amount for which a guarantor who has executed an old type of Guaranty, the CDTFA–140, Rev. 8 or prior, can be held liable will not exceed the maximum amount of security allowed under the law under which the guaranty was taken. The limitations of RTC section 6701 apply.

A guaranty becomes effective as of the date the form is signed. A guarantor may terminate his or her guaranty by notifying the CDTFA in writing of his or her intention to terminate. The termination becomes effective thirty (30) days after its receipt by the CDTFA.

Requests for termination for sales and use tax accounts should promptly be forwarded to the Registration and Security Control Unit. Headquarters will acknowledge the guarantor’s termination by mail with a copy to the office of control. Action to secure replacement security, if necessary, should be taken promptly by the office of control.

The appropriate section in the Program and Compliance Bureau will process the guaranty termination request for special taxes and fees accounts.
Security

GUARANTIES, CDTFA–140 — PREPARATION AND DISTRIBUTION

The CDTFA–140 will be prepared in triplicate. The CDTFA–487–G, Guaranty Receipt Advice, will be printed automatically when posting the guaranty on-line. Offices of control will send the original CDTFA– 487–G and CDTFA–140 to the Registration and Security Control Unit for verification. The duplicates of the CDTFA–487–G and CDTFA–140 are the guarantor’s copies. Neither the business address of the seller nor his/her DBA will be shown on the guaranty.

Two or more of the CDTFA–140 forms from different guarantors accepted simultaneously will carry the same “penal amount” determined to be required as maximum security to be demanded by the office of control.

Depending on whether the guarantor is an individual or a corporation, the appropriate box at the bottom of the CDTFA–140 should be completed in full.

In accepting corporate guaranties, a certified copy of corporate minutes will be obtained showing authorization by the Board of Directors for the corporation to engage as a guarantor. If the “Witness to Signature” is not a member of the staff of the CDTFA, the signature of the guarantor should be acknowledged by a notary public.

The “Notice to Guarantor” section will be brought to the attention of the potential guarantor so that he/she is fully aware of his/her obligations.

OFFICE OF CONTROL

a. Records. A separate guaranty file need not be kept by the office of control since Headquarters will maintain a record of all CDTFA-140 forms received.

b. Review. Whenever the attention of staff is drawn to an account secured by personal guaranty where dishonored checks, late payments, revocation or information of financial instability are involved, a review of the guaranty should be made. This review would include ascertaining if the guarantor(s) connection with the firm remains the same and to what extent, if any, the firm’s financial position may have changed. It may become necessary as a result of this review to demand another type of security.

LETTER OF CREDIT

A Letter of Credit is a binding document that a cigarette distributor can request from his/her bank in order to guarantee payment. For deferred purchases of cigarette tax stamps, a Letter of Credit gives the CDTFA assurance that payment will be received for the cigarette tax stamps purchased on credit by the cigarette distributor. The use of a Letter of Credit as a form of security for cigarette tax stamp purchases shall be at the discretion of the Registration and Licensing Section.

Accepting a Letter of Credit - A licensed cigarette distributor must have their bank or financial institution complete and sign a CDTFA-487-DCB, Irrevocable Letter of Credit. The Letter of Credit must be issued by any of the following:

1. A State of California chartered bank or savings institution;
2. A federally chartered bank or savings institution;
3. Any other foreign or domestic bank or savings institution;
4. A group (syndication) of domestic or foreign bank or savings institutions.

The Letter of Credit must be issued by and payable at a branch in the continental United States, Alaska, or Hawaii. The issuing branch or savings institution, in any event, shall have at the time of issuance of the Letter of Credit an acceptable credit rating as set forth below:

An “Aaa,” “Aa”, or “A” long term bank deposit rating for the bank or savings institution in the current monthly edition of Moody’s Bank Credit Research Monthly Ratings List.

April 2016
The Registration and Licensing Section will periodically verify that a bank’s or savings institution’s long term bank deposit rating is acceptable. If a bank’s or savings institution’s rating subsequent to the issuance of the Letter of Credit falls below the acceptable rating level, the CDTFA shall require the Letter of Credit to be replaced by a bank with an acceptable rating within 45 days of the publication of the lower credit rating.

Processing a Letter Of Credit - Upon receipt of the CDTFA-487-DCB, Irrevocable Letter of Credit, the Registration and Licensing staff shall verify that the credit rating of the bank or savings institution meets the criteria set forth in Guidelines for Accepting a Letter of Credit. Staff can verify long term bank deposit ratings by visiting www.moodys.com and viewing the current monthly edition of Moody’s Bank Credit Research Monthly Ratings List prepared by Moody’s Investor Service, Inc., New York City, NY.

Upon review and approval of the Letter of Credit by the Registration and Licensing, the security will be posted by using a “D” in the security type field in the SEC PO screen. To add the bank or savings institution information, press F9 while in the ‘Guarantor ID and Name’ field on the SEC PO screen and select the bank or savings institution from the list. If the bank or savings institution is not listed, it may be added to the list by contacting the Local Revenue and Allocation Section.

SALES AND USE TAX SPECIAL SECURITY

Under RTC sections 6811 and 6813, security may be deposited in order to obtain a Certificate of Payment, CDTFA–471. This form, commonly known as a “clearance,” relieves a successor of any potential tax liabilities incurred by a predecessor. The certificate may be issued after all amounts due, including amounts not yet ascertained, are secured to the satisfaction of the CDTFA. This security is not subject to the limitations contained in RTC section 6701. However, the selling/purchase price of the business or stock of goods is the maximum amount of security that can be requested.

The sale of a business or stock of goods is required for security deposits to be taken under RTC sections 6811 and 6813. The security for this section should be limited to cash type deposits, including Third Party deposits.

Discretion and good judgment should be used when determining the amount of security required. Existing liabilities, delinquencies, audit and payment history, and person making the deposit (seller, buyer, and third party) are some of the things that should be considered.

The security should only be held for a reasonable period of time needed to establish the amount due. It should then be applied. The difference, if any, should be immediately refunded to the person making the deposit.

When applied, the security will be considered available as of the date deposited.
The forms listed below establish, transfer, change or terminate a security account record:

- CDTFA–454 — Assignment of Cash Security Deposit (e.g., from predecessor to successor).
- CDTFA–1234 — Letter Requesting Conversion of Time and Savings & Loan Certificates to Cash
MISCELLANEOUS SECURITY INFORMATION 420.000

SECURITY FORMS BY TYPE OF DEPOSIT 420.005
The appropriate form is printed automatically on-line when security is received from the taxpayer and posted to the system.

Never allow taxpayers to take form CDTFA–487–C to the cashier for processing. The taxpayer must not receive any portion of the CDTFA–487–C for cash deposits.

RECEIPT OF SECURITY 420.010
Security deposits received as surety bonds, liquid security deposits, and guaranties are posted on the Security Deposit system. Cash security deposits are posted using the Cashiering Enter Remittance Online (CSH RO) screen. Each item of security must be posted separately.

MULTIPLE SECURITY 420.015
Two or more sales and use tax accounts, related to each other by an identical Client/Taxpayer ID (TIN), are covered by the same item of security (e.g., John Doe has two separate sole ownership accounts. The cumulative maximum security is $50,000. However, if John Doe is also in a partnership, the partnership could also be required to post up to $50,000 on this account).

SEPARATION OF DUTIES IN DISPOSITION OF CASH DEPOSITS 420.020
Care must be taken to ensure proper separation of duties upon disposition of cash deposits. The State Administrative Manual (SAM) contains detailed information regarding separation of duties in all activities connected to funds processing. SAM section 8080 specifically provides that no one person may authorize disbursements and also sign checks.

Releases of all security deposits are performed using the on-line Security Deposit system. Since the approval in the Security Deposit system constitutes authority to disburse the deposit, cashiering personnel and the person who approved the refund may not prepare or sign the checks.

No one person in the office should be authorized to perform more than one of the following functions in the preparation and processing of refund checks:

1. Receive and/or deposit remittances.
2. Authorize release of security (CDTFA–487–CR).*
3. Prepare refund checks.*
4. Sign refund checks.**

* The person authorizing release of security or preparing the checks should not be the same person who mails the checks.

** A copy of both a manual and facsimile signature, if a facsimile signature is to be used to sign checks, will be retained on file in the Accounting Section when adding and/or deleting a person from the Authorized Signatures File.

A similar separation of duties applies to savings and loan certificates and time certificates of deposit.
CANCELLATIONS OF SURETY BONDS 420.045

A notice of cancellation from the surety company received by the office of control for sales and use tax accounts will be sent immediately to the Registration and Security Control Unit. The Program and Compliance Bureau will process the cancellations for special taxes and fees accounts. Upon receipt of the notice, two copies of the notice are made. Both copies are imprinted with a rubber stamp to show the effective date of cancellation. The original is filed in the Headquarters Taxpayer Records Unit account folder, one copy is sent to the surety company as an acknowledgment of the cancellation, and one copy is sent to the office of control. The cancellation becomes effective thirty (30) days after its receipt by the CDTFA. In the event that a cancellation is received by both headquarters and the office of control, the earlier of the two dates will be used to determine the effective date of cancellation. If security is required of the taxpayer, the office of control has the responsibility to request replacement security from the taxpayer.

CORRECTION OF SECURITY RECORDS 420.050

Procedures to correct security records established in error vary according to the type of security. Corrected security documents will be prepared through maintenance functions of the on-line Security Deposit system. Time certificates of deposit and savings and loan certificates must be released and new security obtained in correct form. Surety bonds will be corrected by obtaining a rider to the surety bond indicating the correct information (See CPPM 425.040.)
ASSIGNMENT OF SECURITY DEPOSIT

GENERAL

Of the six types of security acceptable to ensure compliance with the laws administered by the CDTFA, only cash may be transferred by assignment between taxpayers. Time certificates of deposit and fully paid investment certificates are issued to a specific entity and are not transferable.

Surety bonds are also issued to a specific entity, but may be transferred by a rider, in which case a new CDTFA–487–S, Surety Bond Receipt Advice, is prepared. The acceptance of such a rider is not normally considered good practice since the penal sum of the bond remains at its original amount. That is, if the bond were originally $2,000 under Account A and later transferred by rider to Account B, and a liability was developed under both accounts in excess of $2,000 each, the surety company would be liable for only $2,000. Instead, staff should request a new surety bond for Account B.

PURPOSE OF ASSIGNMENTS

The procedures outlined in this section provide for assignments of cash deposits posted as security under the sales and use tax laws and special taxes and fees laws where there has been a change of ownership under all the following conditions:

1. The taxpayer has transferred or is in the process of transferring the business to the purchaser.
2. All of the original security deposit is to remain as security for payment of tax by the purchaser of the business.
3. Assignment of Security Deposit, Form CDTFA–454, assigning the deposit to the purchaser has been executed.
4. Final audit has been determined and verified and all taxes paid.

CONDITIONS UNDER WHICH THIS PROCEDURE SHOULD NOT BE USED

When a portion of the deposit is to be returned to the original depositor or applied to a liability of the original depositor, and the remainder transferred to the purchaser’s account, the regular established procedure for refund of deposits should be used. The transfer should then be effected by endorsement of the refund warrant by the original depositor to the CDTFA.

ASSIGNMENT OF SECURITY, CDTFA–454

Assignment of the seller's interest in a cash deposit to the purchaser of the business must be effected by completion of a CDTFA–454. In no case should the CDTFA–454 be prepared unless all tax has been determined and paid by the outgoing individual or partnership. The form is to be distributed as follows:

- Original — to Taxpayer Records Unit for the buyer’s account.
- Copy — to Taxpayer Records Unit for the seller’s account.
- Copy — retained in the office of control for buyer’s account.
- Copy — to seller.
- Copy — to buyer.
PREPARATION OF THE CDTFA–454

At the top of the form, enter the account numbers from and to which transfer of security is being made. The balance of the information required on the form is self-explanatory.

If the deposit being transferred was originally posted under more than one account number, a separate assignment form should be prepared for each deposit.

Ordinarily, when the transferor account is a partnership, all partners should be available for signing the assignor portion of the CDTFA–454. In all cases, care should be exercised to obtain signatures of both the assignor(s) and assignee(s) or their authorized representatives, on all copies of the forms. This may be done through the use of carbon paper, rather than having all copies signed individually.

When the assignor account is a partnership and all partners are not available to sign the CDTFA–454, the available partner(s) may sign the form, provided there is no doubt in the CDTFA representative’s mind of the remaining partner’s) full authority to dispose of the security deposit. When doubt does exist, full particulars should be sent to the Headquarters Legal Division requesting a decision on the legality of the remaining partnership to sign on behalf of the partnership.

SECURITY DEPOSIT RECORD, CDTFA–487–C

A complete set of security deposit records forms will be prepared for the assignee. The comment “CDTFA–454 obtained” should be made in the comments system program when the security item is released from the seller’s account and another comment made in the buyer’s account. In the event an assignee has also deposited additional security, a separate posting of security deposit must be completed in the Security Deposit system for the additional security.

DEPOSIT MADE IN INSTALLMENTS

If the transferor’s original deposit was made in installments, one assignment form, CDTFA–454, may be prepared for the total deposit transferred. Each deposit will be released and transferred separately in the on-line Security Deposit system with comments.

FOR HEADQUARTERS RECORDS

The CDTFA–487–C for the transferee’s account should be forwarded to Headquarters Taxpayer Records Unit with the assignment form.
TRANSMITTAL OF SECURITY OR SECURITY DOCUMENTS 425.000

CASH DEPOSITS — CDTFA–487–C 425.010

The CDTFA–487–C is produced by posting cash on the CSH RO screen or liquid deposits in the online Security Deposit system. Only a copy of the CDTFA–487–C for cash deposits is transmitted to Headquarters Cashier with the office’s daily transmittal.

SURETY BONDS AND RIDERS 425.040

Usually bonds and riders are received by the office of control. The CDTFA–487–S and the bond or rider must be transmitted to the Registration and Security Control Unit in the regular mail. No transmittal form is necessary.

Should the bond be received directly by the Registration and Security Control Unit, the CDTFA–487–S will be prepared and a copy forwarded to the taxpayer.

If the original bond is in error and needs a rider for correction, the effective date of the rider must be the same as the original effective date. All riders with corrections to the CDTFA account number, effective date or dollar amount should be sent to the Registration and Security Control Unit for processing. The Program and Compliance Bureau staff handling the security deposits will process the rider for special taxes and fees accounts.

Riders to existing bonds where there is a change of entity should not be accepted unless the office of control has determined there is no existing or potential future liability on the closed-out account.

GUARANTY, CDTFA–140 AND ENDORSEMENT TO GUARANTY, CDTFA–140–A 425.050

The CDTFA–487–G is prepared in duplicate to record receipt of a guaranty or endorsement to guaranty. The original is sent to the Registration and Security Control Unit with the guaranty (CDTFA–140) or endorsement (CDTFA–140–A) attached. No transmittal form is necessary. The copy is for the office file. The CDTFA–140–A is used as a rider to a guaranty (CDTFA–140) for the purpose of increasing or reducing the amount of the guaranty.
DECREASES IN SECURITY OR PARTIAL REFUNDS 430.000

GENERAL 430.010

Occasions may arise when investigation of an account reveals security is in excess of that required or a taxpayer requests that the security deposit amount be re-evaluated. If the security deposit amount is more than required to properly secure the state’s interest, the security is to be refunded to the depositor. However, if the account has a contingent liability, the security deposit should be applied to the contingent liability and any remaining balance will be refunded to the taxpayer.

DECREASE OF CASH DEPOSIT AMOUNT 430.020

If a portion of a cash deposit is refunded and the balance retained, the information is entered in the retain/release screen and released on the disbursement screen of the on-line Security Deposit system.

DECREASE OF CERTIFICATE 430.030

Reduction in the amount of time certificates and fully paid investment certificates is an expensive procedure and is not encouraged. However, should it become necessary, it can be accomplished by cashing the certificate, posting the proceeds in the Security Deposit system and releasing the entire amount by issuing two checks for the amount received, one for the purchase of the new security and the other to refund the balance to the taxpayer. A preferred procedure is for the taxpayer to deliver a certificate for the reduced amount to the CDTFA. The former certificate is then immediately released to the taxpayer.

DECREASE OF SURETY BOND 430.040

A surety bond is not refunded, but merely reduced. The surety company must send the office of control a “rider” to decrease the amount of the bond. The office of control will “date stamp” each rider showing the date it was received. Decrease riders are approved by the office of control and sent to the Registration and Security Control Unit for processing. The Registration and Security Control Unit adds an end date to the active surety bond record and then posts the bond to the account again for the decreased amount. A new CDTFA–487–B will be produced by the system showing the new amount of the bond.

The Program and Compliance Bureau will process the riders decreasing the amount of the bond for special taxes and fees accounts.
REFUND OF CASH DEPOSITS IN OFFICE OF CONTROL 435.000

REFUND OF CASH DEPOSITS — PROCEDURAL POLICIES 435.010

Checks payable to depositors in excess of $15,000 must be signed and countersigned in the office of control by two authorized persons (See Beam 2517).

The office of control will make refunds for so-called legal cases, such as bankruptcies, assignments and probates. Care must be taken that the check is delivered to the proper person, other than the depositor, who is authorized by the court to receive it.

RETURNED CASH DEPOSIT REFUND PROCEDURES 435.011

A taxpayer’s address change may be discovered when the post office returns a cash deposit refund check to the CDTFA as undeliverable mail. When the cash deposit refund check is $50.00 or more, a prompt attempt to locate the taxpayer should be made. If the refund check is less than $50.00, it should be forwarded to the Accounting Section. The responsibility to determine a current address rests solely with the office of control.

If the tax or fee payer is located, verify the tax or fee payer’s identity by social security number or driver’s license number before mailing the refund check to the taxpayer’s new address and update IRIS. If the depositor is not located within sixty (60) days, a memorandum summarizing all skip tracing actions along with the original check will be forwarded to the Accounting Section. A copy of the refund check and any skip tracing documents will be retained in the office of control for three years.

The Accounting Section will transfer the funds to the unclaimed trust fund. The funds will stay in the unclaimed trust fund for a period of two years. If the taxpayer/depositor does not claim these funds within that time, the funds are escheated to the state’s General Fund.

The office of control for the account must maintain a permanent log identifying all returned cash deposit refund checks. The log is to be maintained by someone other than the refund clerk and include date, new mailing address and the disposition of each check. A supervisor is to review all cash deposit refund checks prior to their re-mailing and periodically review the log book.
UNCASHED CASH DEPOSIT REFUND PROCEDURES 435.012

Each quarter, the Chief Accounting Officer is responsible for preparing and sending a memo regarding uncashed checks to the Administrator of the office of control. The memo is mailed along with two copies of every uncashed check that is $50.00 or more and older than six (6) months from the issue date. The mailing occurs even if there are no un-cashed refunds checks older than six months for that quarter. The office of control is responsible for contacting the Accounting Section if a memo is not received.

Upon receipt of the memo, staff in the office of control will review the account information and, if necessary, will attempt to locate a current address before the CDTFA–1137 and STD–805–A or STD–805–B are mailed. The STD–805–A is used when the tax or fee payer is within California and the STD–805–B when the tax of fee payer is outside California. The office of control will follow up on the mailing within thirty (30) days if a reply to the mailing of these documents is not received.

The office of control will send a report showing the skip tracing actions taken to locate the tax or fee payer on each listed account to the Accounting Section no later than sixty (60) days after receipt of the memo.

**Request for In-Lieu Checks and Stop Payments**

Generally, a request for an in-lieu check originates when the taxpayer informs the CDTFA staff of the loss, destruction, or mutilation of the original refund check and requests a replacement check. The office of control provides the taxpayer with STD–805–A or STD–805–B. The office of control sends an explanatory letter and the completed STD–805–A or STD–805–B to the Accounting Section to request the stop payment of the original check and the issuance of an in-lieu check.

The Accounting Section is responsible for issuing all stop payments. If a taxpayer’s refund check is lost or destroyed within one year of the date of issue, a stop payment is required. When an in-lieu check is required, the Accounting Section will issue the check. The check will be issued after a thirty (30) day waiting period from the time the stop payment was placed by the State Treasurer’s Office.
Refund checks will bear the account number as shown in the CDTFA’s records and the words “security refund” in the upper left hand corner. If the check is being sent to an escrow, the escrow number should also be typed in the upper left corner just under the words, “Security Refund”. Otherwise, no other entries should be made in this section. Below the section “Pay to the Order of,” will appear the name of the taxpayer and his/her last address, as it appears on the report from the on-line Security Deposit system. In the case of an individual, the first name, middle initial (if any) and last name are sufficient to properly identify the taxpayer. The majority of partnerships are comprised of only two parties and there should be sufficient room on the check to include both first names and middle initials of the principals. When a situation is encountered where the number of partners is such that inclusion of the complete first names of each will result in crowding, initials only are acceptable.

a. John R. Smith
   2345 First Street
   Sacramento, CA 95818
b. J.R. Smith, W. Jones, F.A. Gildersleeve and P.T. Eisenhauer
   2345 First Street
   Sacramento, CA 95818
c. The Academy Record Shoppe, Inc.
   2345 First Street
   Sacramento, CA 95818
d. W.T. Ball Co., Inc. and Rocklin Gravel Corp., a joint venture
   2345 First Street
   Sacramento, CA 95818

Where the taxpayer is other than an individual, partnership or corporation, it should be identified on the check as indicated in the foregoing. This requirement will allow the cashing institution (usually the bank where the bank account is maintained) to more easily identify the account. This type of refund is in the minority and the extra typing involved should be no imposition.

If the inclusion of a business name on the check is deemed necessary by the office of control, the taxpayer name should read:

ENDORSEMENT OF CASH DEPOSIT REFUND CHECKS

Occasionally, recipients of cash deposit refund checks may have difficulty in cashing them because of a bank’s refusal to honor their endorsement. The four circumstances most likely to arise are:

1. The cash deposit refund check is made out in the name of a deceased taxpayer and the surviving spouse appears asking for information regarding the proper procedure to be followed to cash the check. When the inquiry concerns a deceased taxpayer, compliance with State Administrative Manual 8477.32 will adequately protect the CDTFA.

2. The cash deposit refund check is made out to individually named partners. One partner appears with the explanation that his/her other partner(s) has disappeared. When the inquiry concerns a missing partner(s), the check may be endorsed as drawn, with the remaining partner's signature as partner entrusted with dissolution under provisions of the Corporations Code §16804.

3. The cash deposit refund check is made out to a corporation. A corporate officer requests that the check be made payable to an individual officer. When the inquiry concerns a corporation, an in-lieu check can be issued to an individual officer if a notarized affidavit signed by each corporate officer is provided.

4. The cash deposit refund check is made out to a dissolved corporation. A corporate officer requests that the check be made payable to an individual officer. The original check, a copy of the Certificate of Dissolution with the Office of the Secretary of State seal that clearly states the name of individual that will be receiving the payment, and Forms STD–805–A or STD 805–B will be returned to the office of control. Staff will then forward the documents to the Accounting Section.

In the few instances where the office of control recommends issuance of an in-lieu check, the original refund check will be sent to the Accounting Section with a request to issue an in-lieu check (see CPPM 435.012). The office of control is not authorized to issue in-lieu checks.

PROCESSING OF THE CDTFA–1035

The CDTFA–1035, Report of Security Deposit Account Checks Issued, is printed on-line by the refund clerk who then prepares the checks.

The refund clerk will enter the check numbers in the Security Deposit system for that transmittal. This includes entry of spoiled (voided) checks, and the check range. The CDTFA–1035 will be printed by the system.

The last report for the month must include the data on the last refund check issued for that month and must be mailed by the office of control no later than four working days prior to the end of the month. If it is necessary to issue another refund check during the remaining days in the month, the Accounting Section must be notified by telephone immediately and a supplemental Form CDTFA–1035 sent to Headquarters without delay.

Spoiled checks are voided and the check numbers are entered in the Security Deposit system. Checks should be voided whenever an error is made in typing the taxpayer's name, amount or date. Erasures or strikeovers are not permissible.

The refund clerk sends the original copy of the CDTFA–1035 and all copies of voided checks and the tissue copies of the refund checks to the Accounting Section. The refund clerk preparing the CDTFA–1035 and refund checks will sign the CDTFA–1035.

Only one CDTFA–1035 needs to be prepared for any one-day’s batch of refund warrants covering all business taxes.
OFFICE VERIFICATION 435.030

Verification should be made that each completed CDTFA–1035 agrees with the total amount applied to the CDTFA and the amount of checks prepared to each taxpayer/client.

CLOSE-OUT AUDITS AND RELEASING SECURITY DEPOSITS 435.035

A security deposit refund will be completed only after the appropriate audit program has cleared any pending audits (i.e. selected for audit or in process) and the taxpayer’s on-line record has been thoroughly checked for any record of unpaid liabilities. However, for accounts that have been selected for audit but the audit has not yet started, the appropriate audit program has sixty (60) days from the date the close out was processed (i.e. close out “create date”) to assign the audit and to contact the taxpayer. If the audit is not actively being worked after sixty (60) days, the security deposit must be released.

Application of Security

When a security deposit is to be applied to a liability the following effective dates should be used.

1. Cash — the date of the close out.
2. Liquid — the date of the close out.
3. Surety Bond — the postmark date of the payment.

If there is more than one period of liability, refer to section 620.030 for the order of allocation

GUIDELINES FOR REDEEMING AND/OR CONVERTING TIME DEPOSIT AND SAVINGS ACCOUNTS HELD AS SECURITY DEPOSITS 435.050

General

When a bank is sold to or merged with another bank, the CDTFA’s policy is to contact the surviving bank for a replacement account, new collateral, and a signed Savings Institution Acknowledgement from the second page of the CDTFA–598, Notice of Security Requirements.

The CDTFA has experienced some difficulties when attempting to redeem a deposit account for cash or change an account’s collateral to collateral from the surviving bank. The three most common problems encountered are: (1) the bank can not find a record of the account, (2) the bank refuses to issue a certificate or passbook from the surviving bank or (3) the bank states the account was transferred to the State Controller as required by operation of law or released to a person other than the CDTFA.

Banks and financial institutions are required to transfer funds to the State Controller in cases where the depositor cannot be found.

Procedures

1. If the time deposit or passbook savings need to be converted, the account should be reviewed for release eligibility. If it meets the release criteria, the security should be released.

When time deposit and passbook savings accounts are to be redeemed or converted, the collateral should be sent via first class mail. A photocopy of the collateral and appropriate letters will be sent to the financial institutions. The original certificate will be provided on request. If staff cannot locate the certificate, a letter explaining the situation will be sent to the banks. Copies of the documents sent to the bank should be kept in a secure place. Staff will continue to work closely with financial institutions until payment is received. When the replacement has been received, the “old” certificate is ended and the new one is posted. Both certificates must be retained.
2. When time deposit and passbook savings accounts are to be redeemed, and there may be excess funds due to the taxpayer, a CDTFA–1234, Letter Requesting Conversion of Time & Savings & Loan Certificates To Cash, should accompany the original evidence of deposit sent to the savings institution. Instructions for disbursement of excess funds must be included on the CDTFA–1234.

3. All contacts with the bank should initially be in writing or followed-up with a letter. If financial institutions still refuse to redeem the certificate, staff should visit the bank and redeem the certificate. All contacts should exhibit a firm, professional tone. Do not hesitate to speak to the branch manager to resolve any difficulties. Always complete a CDTFA–487 as outlined in CPPM 420.005.

4. When security collateral is to be released to a taxpayer and the taxpayer cannot be located after using all available skip tracing resources, send the collateral with release endorsement to the bank. The cover letter should inform the bank that the CDTFA has released its interest in the funds to the depositor/taxpayer and, if the funds are transferred by operation of law to the State Controller, the CDTFA should not appear as the account holder or other interest holder on the account.

Circumstances

1. The Bank Says It Has No Record of the Account

Active Permits and Licenses — When converting an old deposit account to a new account from a surviving bank, and the bank has no record of the account, explain to the bank that the CDTFA is the account holder and is presenting the original collateral for conversion and the request should be honored. If the bank continues to refuse to convert the old account to a new account or redeem for cash, return the collateral to the taxpayer with a completed CDTFA–35. Include the CDTFA–598 for the required replacement amount.

Closed-Out Permits and Licenses — When redeeming a deposit account for cash, explain to the bank that the CDTFA is the account holder and is presenting the original collateral for redemption and the request should be honored. If the bank continues to refuse to redeem the collateral for cash, refer the denied claim to the Collections Support Bureau for an Attorney General referral.

2 The Surviving Bank Refuses to Issue a New Certificate for an Old Account

If the surviving bank retains the account numbers of the former bank but does not issue certificates, a letter from the bank that certifies those circumstances and also that the surviving bank will honor the former institution’s certificate when presented for redemption is acceptable — with the required wording — in-lieu of a replacement certificate.
When attempting to convert a deposit account and/or replace the collateral from a surviving bank, explain the CDTFA’s policy to the bank. If the bank will not conform to our request, ask to withdraw all the funds without an early withdrawal penalty.

- If the penalty is not waived and the maturity date is within ninety (90) days, hold the certificate until that date. At that time, contact the bank to close the account. Complete and send the CDTFA–36, to inform the taxpayer of the circumstances and ask the taxpayer if he or she would like the cash deposit converted to a deposit account.

- If the early withdrawal penalty is waived, redeem the collateral for cash and post the amount as a cash deposit. Notify the taxpayer of the actions taken with a CDTFA–36.

- If the penalty is not waived and the maturity date is not within ninety (90) days, hold the certificate and set a follow-up date. Send the bank a CDTFA–37. When the account reaches the maturity date, contact the bank to cash the account. Complete and send a CDTFA–36, to inform the taxpayer of the circumstances and ask the taxpayer if he or she would like the cash deposit converted to a deposit account. Send the bank a CDTFA–37.

If the bank still refuses to redeem the certificate, a copy of the certificate, CDTFA–35 and the CDTFA–598 will be mailed to the taxpayer. If the replacement is not received after thirty (30) days, it should be pursued in the same manner as any other request for security.

3. The Bank Says the Account was Transferred to the State Controller or Released

When converting or redeeming an account, explain to the bank that the CDTFA is the account holder and is presenting the original collateral and the request should be honored.

- If the account is determined to have been transferred to the State Controller by operation of law, the bank should pay the CDTFA and file a Holder’s Claim for Reimbursement with the Bureau of Unclaimed Property of the State Controller’s Office, (800) 992–4647, to retrieve the funds. If the financial institution still will not send payment, the account documents should be forwarded to the Compliance Policy Unit, who will then file a claim with the Bureau of Unclaimed Property.

- If the account is determined to have been released to the taxpayer, the bank should be informed that the account holder is the CDTFA and without the CDTFA’s release endorsement, the bank remains liable for the funds.

- If staff cannot collect from the taxpayer, the bank should be requested to make payment. If the bank continues to refuse to redeem the collateral for cash, refer the denied claim to Collections Support Bureau for an Attorney General referral.
4. Security Released to a Taxpayer by the CDTFA

When collateral is released to a taxpayer and the taxpayer has difficulties redeeming the collateral with the bank, the taxpayer will sometimes ask the CDTFA for assistance.

- If the bank has told the taxpayer that they cannot find a record of the account, the taxpayer should be advised that the CDTFA has released its interest in the account to the taxpayer and the bank should honor the original collateral. Continued refusal by the bank to redeem the collateral may be a civil matter between the bank and the taxpayer.

- In cases where financial institutions refuse to release the security to the taxpayer, the CDTFA will provide a letter stating it has released all interest in the funds to the depositor/taxpayer.

- If the bank determines that the funds were forfeited to the State Controller when the depositor could not be located, the taxpayer should be directed to the Bureau of Unclaimed Property at the State Controller's Office, (800) 992–4647. The funds may be listed under the California Department of Tax and Fee Administration (or Board of Equalization if security was originally posted under a Board of Equalization account), but the taxpayer's name and social security number may also be shown. If the State Controller locates the funds, the local CDTFA office will provide the taxpayer with documentation needed, such as a release of interest letter, for the taxpayer to present to the State Controller when submitting a claim for the funds. If the State Controller cannot find a record of the funds, the taxpayer should be directed to the bank for settlement. Continued refusal by the bank to redeem the collateral may be a civil matter between the bank and the taxpayer.

However, if at any time staff cannot locate a bank or savings and loan association whose certificate has been posted as security to a business taxes account, they may call the Registration and Security Control Unit for the name and address of the institution that has assumed responsibility for payment of the certificate.

DISPOSITION OF INSURED ACCOUNTS AND LIQUID SECURITY WHEN THE TAXPAYER CANNOT BE LOCATED OR THE FINANCIAL INSTITUTION FAILS

The CDTFA has an obligation to make every effort to return a taxpayer's deposit after the account is closed out and cleared. Staff should exhaust all available sources of information in an attempt to locate the taxpayer.

When security collateral is to be released to a taxpayer and the taxpayer cannot be located after using all available skip tracing resources, send the collateral with the release endorsement to the bank. The cover letter should inform the bank that the CDTFA has released its interest in the funds to the depositor/taxpayer and, if the funds are forfeited to the State Controller at a later date, the CDTFA should not appear as the account holder or other interest holder on the account.

Should an institution fail, staff will take immediate steps to notify the Registration and Security Control Unit of the failure. The Registration and Security Control Unit will correct their records and notify the Compliance Policy Unit in the Tax Policy Bureau by sending a listing of accounts secured by certificates issued by the defunct institution.

Instruction to the office of control will follow from Headquarters as to the identity of their accounts and how to proceed to protect both the state and the depositor.
JEOPARDY DETERMINATION SECURITY 445.000

GENERAL 445.010

Any person against whom a jeopardy determination is made who decides to file a petition for re-determination must do so within ten days from the date of the determination. At the same time, the person must also deposit with the CDTFA such security as may be deemed necessary. The security must be in any of the forms that would be acceptable as regular security, except guaranties. If a surety bond is offered, it will not be accepted unless the effective date covers the oldest period of the liability and the surety company has knowledge of the pre-existing liability.

AMOUNT OF SECURITY 445.020

Generally, the amount of security required should be equal to the amount of the jeopardy determination. There may be, however, situations where an amount of security less than the amount of the jeopardy will be acceptable. If acceptance of a petition for re-determination is to be recommended by the office of control when the amount of security accepted is less than the amount of the jeopardy determination, the recommendation should be made by the Administrator or designee. The effective date of the security is the earlier of the date of deposit or receipt by the CDTFA.

When accepting security on jeopardy determinations, the taxpayer should be informed that interest will continue to accrue on the tax until the liability is re-determined and the security applied. The advantage of full payment over posting security should always be clearly explained to the taxpayer since full payment may avoid possible interest accruals. In cases where the taxpayer has posted security in the form of a cash deposit, interest will stop accruing upon receipt. Other forms of security will not stop the accrual of interest.

PROCESSING 445.030

Security for jeopardy determinations should be processed in the same manner as regular security deposits. Petitions which are accompanied by security should be forwarded immediately to the Headquarters Petition Section with a transmittal letter with information regarding the amount and form of security posted.
CLAIMS UPON SECURITY FROM OUTSIDE THE CDTFA AND LIEN DEMANDS

GENERAL

Government Code section 12419.4 provides that the state has a lien for any taxes due the State from any person or entity, upon all personal property belonging to such entity and held by the state or amount owed to such entity by the state. Section 12419.4 does not apply to sales and use tax security deposits (see CPPM 465.030).

Government Code section 12419.4 does not apply to salaries or wages owing to officers or employees of the state. It does not permit one agency to obtain property or money held by another agency, as long as the holding agency has any rights against such properties or monies. Whenever it has been deposited with a state agency for a particular purpose, e.g., the payment of taxes, it shall not be used for any other purpose by the holding agency, until it is no longer needed for the purpose for which it was held or deposited.

A lien created by Section 12419.4 of the Government Code is enforced by means of a written demand by the creditor agency on the agency holding the property.

LIEN DEMANDS ON OTHER STATE AGENCIES

The Collections Support Bureau (CSB) is responsible for lien demands on other agencies. The CSB prepares the demand letter directed to the other agency, and maintains a follow-up to ensure receipt of the funds or property or, if nothing is available, that a reply is received.

The demand letter will include the amount of the delinquent liability owed to the CDTFA, plus any additional charges which may accrue, and a statement that the amount due constitutes a lien pursuant to Section 12419.4 of the Government Code on property held, or amount owed to the taxpayer by the other agency. The other agency shall be requested to transfer the property held, or pay to the CDTFA the amount owed, up to the stated amount of liability.

When a program area has information indicating that another state agency holds property of a person indebted to the CDTFA, or owes an amount to such person, the CSB will promptly be furnished with the following information:

1. Name of the agency.
2. Nature of the property or the approximate amount the agency owes to the person.
3. Reason for the other agency’s indebtedness, and
4. Approximate date on which the property will be returned or refund made.

Upon receipt of this information, the CSB will enforce the lien by making written demand on the other agency.

LIEN DEMANDS ON THE CDTFA — OFFICE OF CONTROL ACTION

When lien demands are received by a program area, the taxpayer will be notified that a demand has been made under section 12419.4 of the Government Code, and the CDTFA proposes to honor the demand subject to any prior claim the CDTFA may find in its favor. A copy of this letter will be sent to the agency making the demand and to the CSB.

If a taxpayer disputes the amount owed to the other agency, the CDTFA will not become involved in the matter. The taxpayer will be advised by letter that the matter should be taken up with the other agency, and that the CDTFA, under the Government Code, has no alternative but to honor the demand.

December 2008
LIEN DEMANDS ON THE CDTFA—
HEADQUARTERS ACTION 450.040

Copies of the CDTFA’s refund schedules are furnished to the Employment Development Department and Franchise Tax. If those agencies desire an offset of any of the items indicated under Section 12419.5 of the Government Code, they send their requests for offset directly to the Audit Determination and Refunds Section (ADRS).

Lien demands received from other agencies by the Headquarters office will be routed to the CSB for processing.

Upon receipt of a lien demand, either through a field office or directly from another agency, the CSB will review the account to determine if a tax overpayment refund is pending. If such a refund is pending, the CSB promptly notifies the ADRS of the lien demand. The ADRS will make arrangements for an offset by the State Controller.
PAYMENT OTHER THAN SECURITY
TO OTHER STATE AGENCIES 455.000
ORDER OF PRIORITY OF LIENS 455.040

All liability owed by the taxpayer for any of the tax laws administered by the CDTFA must be cleared before meeting the demands of other state agencies. If a CDTFA liability is cleared, and the remaining refund is not sufficient to meet all demands from other agencies, such demands will be paid in the order received.

A federal claim, Notice of Levy, served on the CDTFA will not be recognized against a refund until all liabilities owing to all state agencies, which have asserted liens are cleared. When conflicting demands are made upon refunds, they will generally be honored in the following order:

1. Any amount owed to the CDTFA under any of the tax laws that it administers.
2. Liens of other state agencies acquired through the provisions of Section 12419.4 of the Government Code.
3. Federal levies.

FEDERAL CLAIM, NOTICE OF LEVY 455.050

The Federal Notice of Levy is effective on refunds that may be due the taxpayer. If refunds, either overpayment or audit refunds, are in process, they will be identified when the copy of the Notice of Levy is sent to the CSB. Headquarters will take action to give effect to the levy in these cases.

Levies by the Federal Government can be made by service of their Notice of Levy on field offices of the CDTFA. All other services on the CDTFA must be made on the Director.

When a Notice of Levy is served by an agent of the Federal Government, or by mail, on a field office, it will be accepted by the Administrator or designee. Service only will be acknowledged. No answer shall be made in writing that the CDTFA holds anything at this point that may be subject to the levy. The agent should be advised that as soon as it is determined that nothing is owed to the state and that there are no prior claimants that may have priority, the levy will be honored.

A copy of the notice will be immediately transmitted to the CSB. Inquiry should be made to determine if any amounts are owed to the other state agencies. If there is surplus refund money after paying the CDTFA’s amounts in full and any other amounts due other state agencies, a letter will be sent to the taxpayer advising him or her of the federal levy. If the taxpayer neither acknowledges nor objects to the levy within a specific time, the levy will be honored by the CDTFA. Should an objection be received, full particulars will be sent to the CSB for referral to the legal staff.

If it is acknowledged or no objection is received, any surplus money will be paid directly to the Federal Government. A copy of their levy should accompany the payment. If there are no funds available, a copy of the levy will be returned to them with a statement that no funds are available.

THIRD PARTY DEPOSITS 455.060

Deposits made by a third party to obtain a use tax clearance must be kept in the name of the party placing the deposit. Such deposits are not subject to lien demands. These deposits are not available to apply to any other liability owed by the taxpayer except for those accounts for which a CDTFA–1274, Notice of Amounts Due, and/or CDTFA–471, Certificate of Payment, have been issued.
In order to ensure the accuracy of the information on file, the security document from the security file is compared to the records in the online security system when the security for that account is to be applied or refunded.

In addition, every year the Registration and Licensing Section, the Motor Carrier Office, and each field office will receive a listing of active liquid security documents to be reviewed. The list will contain the account number, ownership, and the type, amount, and identification of the security document as shown on the control records.

Verification of the actual documents will be made by a person other than the normal custodian of the documents. The Registration and Licensing Section, the Motor Carrier Office, and each field office will receive a spreadsheet with the active liquid security deposits with discrepancies noted directly on the spreadsheet. Reconciliation also may include:

- Acquiring duplicate certificates from banks that have merged,
- Obtaining missing information or documents (e.g., missing information on the Financial Institution Acknowledgment section of the CDTFA-598, Notice of Security Requirements),
- Sending a CDTFA-37, Security Deposit Account Verification, if appropriate, and
- Transferring certificates to the appropriate office.

When transferring documents to the correct office, a copy will be kept by the transferring office for two years and comments will be added in IRIS noting the date the security documents were sent to the receiving office.

The list will be worked until all the security is reconciled. Appropriate comments should be made regarding items that were not verified due to transfers to other offices or other reasons. If reasonable efforts to obtain missing documents are unsuccessful, staff should pursue replacement security.

Within sixty (60) days, field offices will send the completed spreadsheet to the Deputy Director, Field Operations Division, the Registration and Licensing Section will send the completed spreadsheet to the Program and Compliance Bureau, and the Motor Carrier Office will send the completed spreadsheet to the Audit and Carrier Bureau. A copy of the completed spreadsheet will be retained in the office of control for the account.

When a payee reports that a check has not been received, a memorandum should be forwarded to the Headquarters Accounting Section providing the payee’s name, current address, account number, check number, date and amount of check.

In those cases where the intended payee reports to the CDTFA that a check has not been received, and the check is found to have been paid by the State Treasurer, the CDTFA’s Accounting Section prepares the documentation necessary before issuing the replacement check.
OFFSETS FOR OTHER ACCOUNTS OR STATE AGENCIES 465.030

RTC section 6701 provides that any security in the form of cash or insured savings accounts shall be held by the CDTFA in trust to be used solely in the manner provided by RTC sections 6701 and 6815. Most security provisions for special taxes and fees programs contain similar language. Therefore, cash and savings account security deposits for sales and use tax accounts may not be applied to other tax programs administered by the CDTFA or offset or released to other state agencies claiming a lien pursuant to Government Code section 12419.4.

GUIDELINES FOR RELEASING SECURITY DEPOSITS TO FINANCIAL INSTITUTIONS 465.040

When funds are forfeited to the State Controller’s Office and the CDTFA has been unable to locate the taxpayer, the following procedures should be implemented.

When time deposit and passbook savings accounts or any other security collateral is to be released to a taxpayer and the taxpayer cannot be located after using all available skip tracing tactics and resources, the bank in possession of the security should be notified. The release endorsement along with a cover letter CDTFA–435–4 must be sent to the bank of record informing them that the CDTFA has released its interest in the funds to the depositor. This letter also informs the bank that if funds are forfeited to the State Controller’s Office at a later date, the CDTFA should not appear as the account holder, or other interest holder on the account.

If the bank contacts the CDTFA after receipt of the CDTFA–435–4 letter, an explanation should be provided to the bank representative that the CDTFA has been unable to locate the depositor. The CDTFA representative should explain that security is no longer required and the CDTFA releases its interest in the funds to the depositor. It should also be emphasized to the bank that the CDTFA should not appear as the account holder or other interest holder on the account as stated in the CDTFA–435–4.

LIQUIDATION OF A SURETY COMPANY 465.050

When the CDTFA receives notification that a surety company is being liquidated, the Registration and Security Control Unit will provide the Compliance Policy Unit with a list of taxpayers with surety bonds issued by the surety company. The Compliance Policy Unit will provide the CSB with copies of the notice of liquidation and the list of affected accounts. The Compliance Policy Unit will distribute the list to the offices of control for the accounts with a request that replacement security be obtained if the CDTFA still requires security from the taxpayer.

The CSB is responsible for making any necessary demands on the bonds or other activity with respect to collection from surety. They will send a memo asking the offices of control for the accounts to provide them with a list of accounts and a CDTFA–200, Special Procedures Action Request, for each account for which a claim against the bond is required. The CSB will combine all the requests and file one claim in the liquidation.

SURETY COMPANY NAME AND OWNERSHIP CHANGES 465.060

When the name or ownership of a surety company changes, CDTFA policy is to contact the new surety company to request a rider showing the change. The Registration and Security Control Unit will advise the Compliance Policy Unit and provide a list of affected accounts. The Compliance Policy Unit will distribute the list to the offices of control for the accounts and request that a rider showing the change be obtained.
