Hazardous Waste Generation and Handling Fee Program Reminders and Online Filing Requirement

Effective January 1, 2022, all hazardous waste generation and handling fee accounts are required to pay the generation and handling fee for each reporting period in two equal payments. ([Senate Bill 158](#); Stats. 2021, ch.73)

Important due dates

The amount due for the 2022 reporting period will be based on the amount of hazardous waste in tons you generated in calendar year 2021. Below are reminders for your upcoming prepayment, return, and final payment due dates.

- November 30, 2022—Prepayment
- February 28, 2023—Return and final payment

Please note: For accounts previously on a prepayment schedule, your prepayment due date has changed from August 31 to November 30 for each year.

New fee rate reminder

Beginning January 1, 2022, the generation and handling fee of \$49.25 per ton or fraction of a ton of hazardous waste, applies to each generator of hazardous waste at each generator site generating five or more hazardous waste tons per calendar year or portion of the calendar year. This generally includes recycled waste, non-manifested treated wood waste, non-manifested universal waste, imported waste, and waste sent outside California for disposal.
